### Defense Industry is

the core business that laying the foundation for 'accountable national defense' and 'strong security.' **Suh Wook**, Minister of National Defense DX Korea, is more meaningful than ever, bringing together defense industry and officials from around the world.

Min Hongcheol, Chairman of the National Assembly Defense Committee

### Good morning.

I am Suh Wook, Republic of Korea Minister of National Defense. First, I would like to express my congratulations for the successful hosting of the Defense and Security Expo Korea 2020.

I would also like to extend my sincere gratitude to the members of the Association of the Republic of Korea Army, especially Chairman Kwon Oh-sung, for this meaningful event for national security and defense industry development.

I would further like to express my gratitude and welcome to the Chairman of the National Defense Committee of the National Assembly, Representative Min Hongchul, defense company representatives, and all other distinguished visitors.

Of course, I would also like to extend my gratitude to Major General Al-Ameri, Commander of the UAE Land Forces; Undersecretary Elefante from the Philippines Department of National Defense; and all foreign delegations, who made the long trek here to the Republic of Korea despite the difficulty of the current situation due to COVID-19.

DX-Korea is the finest defense and security expo in Asia, in which the most outstanding ground weapon systems from nations all over the world are exhibited. Since its first iteration in 2014, DX-Korea has solidified its position as the platform for international cooperation to construct cutting-edge national defense power. Notably, I believe this year's DX-K is particularly meaningful as it was hosted to continue defense exchange and cooperation despite the COVID-19 situation.

#### Distinguished guests,

Defense industry is the powerhouse behind economic growth, propelling cutting-edge science and technology, and industry development.

Furthermore, it is the nation's core industry, laying the foundation for 'accountable national defense' and 'strong security.' The Republic of Korea was a wasteland in terms of defense industry in the immediate aftermath of the Korean War, but has since risen to become the 9th strongest defense science and technology power in the world today,

And has become a major power in defense industry, indigenously developing and exporting a full spectrum of equipment from rifles to state-of-the-art guided missiles.

### <u>"The Republic of Korea has been a pioneer in the development of future weapons, applying cutting- edge</u> technology of 'Militech 4.0,' including drones, robots and AI. <u>"</u>

Our armed forces are endeavoring in multiple directions for the defense industry's new leap.

In the next 5 years, we will dedicate over 80% of the defense enhancement budget, totaling 100 trillion won, to ensure stable growth of defense industry.

In conjunction, we will actively pursue policies to foster defense industry, and strengthen civilian-government technology cooperation for the development of the Eight Major Defense Strategy Technologies, including intelligent command and control.

# I am certain that such efforts by our armed forces will not only sharpen the competitive edge of defense industry, but also contribute greatly to the 'Korean New Deal' pursued by the Republic of Korea Government.

#### Distinguished guests,

Our armed forces are in the process of constructing power national defense power to lead the future. Notably, through Defense Reform 2.0 and Smart Defense Innovation, we are endeavoring to become a force equipped with cutting-edge science and technology, capable of facing a full spectrum of security threats. I am certain that DX Korea 2020 will showcase our armed forces' efforts and achievements, and serve as a special arena, in which the Republic of Korea's word class defense science and technology power and defense industry capabilities will be recognized. In closing, I hope this year's expo will invigorate international military exchange and defense industry cooperation, and serve as a catalyst for defense industry exportation.

Again, I would like to express my gratitude to Chairman of the Association of the ROK Army, Kwon Oh-sung, and all other relevant officials, for hosting this important expo. Please accept my wishes for continued success of all distinguished guests here today.

Thank you.

### Distinguished guests,

I am Congressman Min Hong-Cheol, Chairman of the National Assembly Defense Committee.

First of all, let me congratulate you on the successful hosting of DX KOREA 2020. DX Korea has grown successfully as one of the largest defense and security industry networking platforms in Asia.

In addition, I would like to extend my warm appreciation to all the Korean and foreign defense companies and officials, including Kwon Oh-sung, President of the Association of the Republic of Korea Army for making this event possible despite difficult situations due to the global epidemic of COVID-19 and also thank all the visitors at home and abroad for gracing the events.

As you know, countries around the world including Korea are accelerating their efforts to introduce a variety of advanced science and technology that did not previously exist in their military field amid the recent waves of the Fourth Industrial Revolution.

Majority of the new concepts, such as artificial intelligence, sensors, hyperconnectivity, and drone bots, which were unfamiliar just 10 years ago, have now become substantive enough to have been easily found on actual battlefields, and some of them are evolving into a technology, familiar to our daily lives.

### Korea's defense industry, which is taking advantage of this trend, has achieved remarkable growth. In

fact, its global defense market share, only 0.9% between 2010 and 2014, has grown to 2.1% between 2015 and 2019, and the types of weapons that Korean defense companies export have also become more diverse.

For this reason, recently there has been rising needs to improve the defense acquisition process in Korea so that various high-tech technologies, the outcome of the 4th industrial revolution, can be applied to the defense field more quickly. In addition, it has been also steadily pointed out that we need to convert the structure of the domestic defense industry mostly catering to domestic demand, to export-oriented.

Moreover, as the activities of the domestic defense industry have greatly reduced due to the global outbreak of COVID-19, the government's level of support has been gaining more importance to help the domestic defense industry overcome the crisis including localization of various weapon systems and various measures to support overseas entry of defense companies.

### In such a situation where the domestic defense industry is experiencing a great crisis, <u>I believe DX Korea, hosted by the</u> <u>Association of Republic of Korea Army, is more meaningful than ever, bringing together defense industry</u> <u>and officials from around the world.</u>

Though <u>DX KOREA 2020</u> is held under this difficult condition, I hope that it can go beyond a simple exhibition that globally promotes the excellent domestic defense technology developed based on objective assessment of international experts in the industry and <u>will serve as an opportunity to promote the development of our security and defense</u> industry and to seek a new direction to move forward.

As the Chairman of the Defense Committee of the National Assembly of the Republic of Korea, I will strive to promote various policies that will not only enhance the military power, but also contribute to innovation and prosperity in the domestic defense industry, and contribute to building a strong defense posture on the Korean Peninsula.

Lastly, I would like to thank the President of the Association of the Republic of Korea Army, Kwon Oh-sung, who worked hard for a long time until this day, and the former Army Chief of Staff Kim, Pan-Gyu, who served as the first President of the Association, and former Army Chief of Staff Kim Yong-Woo, the organizers as well as Minister of National Defense Seo Wook, and all the participating officials of the ROK Army, Navy, Air Force, and Marine Corps for your support. I wish you good health and happiness.

It will become a venue of a festival where the private, public sectors and military gather together Kwon Ohsung, President of AROKA

Distinguished guests, I am Kwon, Oh-Sung, President of the Association of the Republic of Korea Army, hosting the Defense and Security EXPO Korea.

It is my profound honor to host the opening ceremony of the 4th Defense and Security EXPO Korea today with distinguished guests from home and abroad.

First of all, I would like to express my gratitude to Chairman Min, Hong-Cheol of the National Assembly Defense Committee, Lawmaker Hong Jeong-Min and Kim, Byeong-Ju, and Minister Seo Wook of National Defense for gracing this event with your presence despite busy schedule.

I would like to also thank the Chief of Staff of the Army, delegations, and diplomatic missions from 13 countries.

In particular, I would like to express my gratitude to Army Chief of Staff Nam, Young-Shin, Naval Chief of Staff Bu, Seok-Jong, Air force Chief of Staff Lee, Seong-Yong, and Commissioner of Defense Acquisition Program Administration Wang Jeong-Hong for attending this event.

In addition, I would like to thank the heads of agencies and officials at various levels who are leading the domestic defense industry even in the difficult situation due to COVID-19, as well as the representatives, executives and employees of defense companies w eborn as a stronger and more competitive battle force amid the rapidly changing security environment and changes in troop reduction.

# Now, <u>Korea's defense industry has improved significantly in terms of quality as well as external growth</u>, and is now equipped with sufficient global competitiveness.

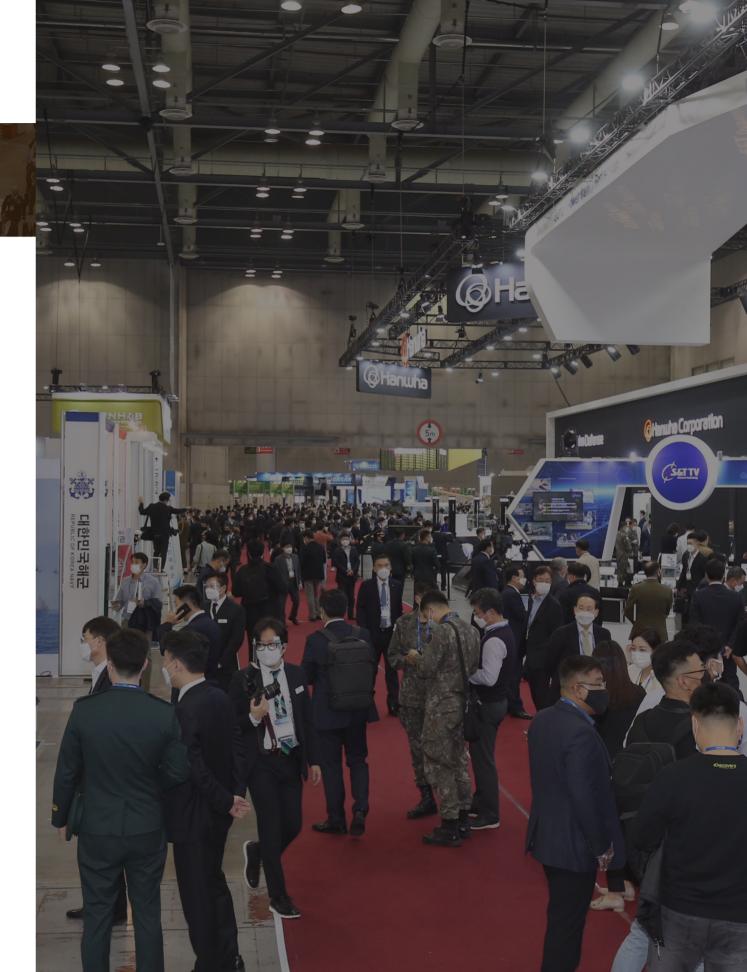

Therefore, I am confident that DX Korea will serve as the foundation for further development of the Korean defense industry by promoting the excellence of our defense industry to the world.

I hope that DX Korea will be an opportunity to take the Korean defense industry to the next level by achieving great results based on the generous support and active support of the people.

In addition, I hope that **it will become a venue of a festival where the private, public sectors and military gather together** to serve as the foundation for fostering the defense industry that will lead the era of the 4th industrial revolution, meeting the expectation of the government.

In closing, I would like to once again express my deep gratitude to the distinguished guests at home and abroad for gracing this event today, and wish the success of DX Korea 2020.

Thank you.

# **Opening Ceremony**

- Date/Location: 18(Wed). Nov. 2020. 09:30 13:00 / KINTEX Hall 10, Official Venue
- Schedule : VIP Greeting Official Opening Event Exhibition Group Tour Welcome Luncheon
- Major Guests : Minister of National Defense, Chairman of Defense Committee of National Assembly, National Assembly members, The Army Chief of staff, The Chief of Naval Operations, the Deputy Chief of the Air Force, Minister of DAPA, President of ADD, President of DTaQ, President of KARI, Vice Chairman of KDIA, The Blue House Presidential security office, International Delegations from 13 countries, Ambassadors to Korea of 16 countries, and Defense Attache from 45 countries.

09:30~09:31(1')	Opening Announcement	09:58~10:00(2')	Photo
09:31~09:33(2')	The Pledge of Allegiance	10:00~11:00(60')	Exhibition Group Tour
09:33~09:37(4')	Opening Address – President, AROKA	11:00~11:50(50')	Outdoor Exhibition Tour

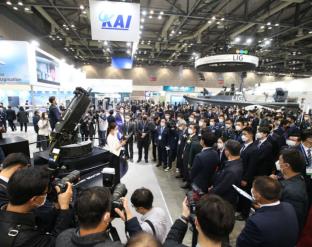

Welcome Luncheon

대한민국방위산업전 DX KOREA 2020 DEFENSE & SECURITY EXPRON

# Welcome Luncheon

- Date/Location : 18(Wed). Nov. 2020. 12:00 13:00 / KINTEX Hall 6C
- Major Guests : Minister of National Defense, The Army Chief of staff, The Chief of Naval Operations, the Deputy Chief of the Air Force, Member of the National Assembly, Staff members of Defense Industry Companies , International Delegations, Ambassadors to Korea, and Defense Attache.

# Welcome Reception

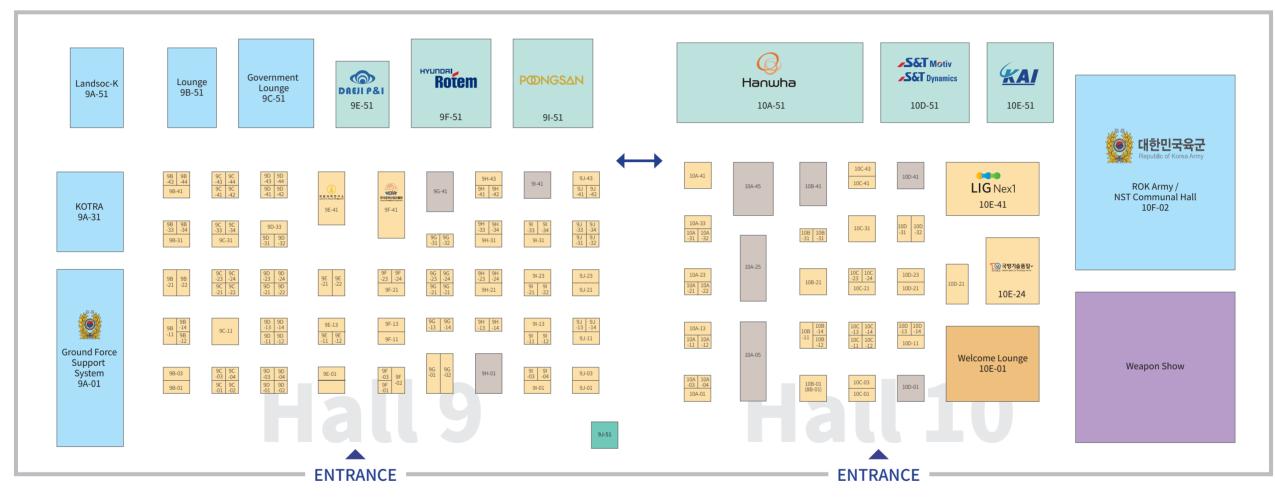

- Date : 18(Wed). Nov. 2020. 18:30 21:00
- Location : SEOUL DRAGON CITY HANRA Hall
- Major Guests : About 200 VIPs including National and International VIP, Member of the National Assembly, Participating Companies Representatives etc.
- Main Schedule : Greetings Toast Dinner Celebratory Performance

Time	Contents	Time	Contents
18:20~18:40(20`)	Registration	19:00~19:06(6`)	Toast: Member of the National Assembly, Company Representative.
18:40~18:44(1`)	Opening Video	19:06~19:21(15`)	Performance 1: Jazz
18:44~18:47(3`)	Welcoming address: Kim Yongwoo - DX KOREA Organizing Committee President	19:06~19:21(60`)	Dinner
	Congratulatory Address: Nam Yeongshin	20:21~20:41(20`)	Performance 2: Fusion Korean Traditional Music
18:47~18:53(6`)     Congratulatory Address. Nam Yeongsnin       - The Chief of Staff of the Republic of Korea Army		20:41~20:50(9`)	Farewell

Booth Floor Plan

# **Booth Floor Plan**

### Weapon System

- Tanks, Armored Fighting Vehicles, Combat Engineer Equipment, Mine-Clearing Line Charge, MRAP, etc.
- Artillery, Small Arms, Guided Weapons, Laser Weapons, Ammunition, Artillery Shells, Rockets, Bombs, etc.
- Anti-Aircraft Gun, Guided Anti-Air Weapons, Aerial Defense Radar, NBC Detection & Protection Equipment, etc.
- Helicopters, UAV, C4I Command and Control Systems, Combat Training Simulations, Communications, etc.

### Counter Terrorism, Security, Law Enforcement

- · EOD Detection & Disposal Equipment, Less-Lethal Weapons, Specialized Protection Vehicles,
- X-Ray Inspection Machines, Metal Detectors, Digital Detectors, Surveillance Equipment, etc.

- Self-Defense Equipment, Riot Control Equipment, Polygraphs, Fingerprint Scanners, Drug Detectors, etc.
- Microscopes, Forensic Science Equipment, Ballistic Armor & Plates, Law Enforcement Armored Vehicles, etc.

### Military Equiment

- Combat Uniform & Boots, Special Purpose Uniforms, Load Bearing & Combat Carry Equipment, Pouches & Attachments, Hydration System, Bayonets, Scabbards, etc.
- Sleeping Bags, Blankets, Tents, Rations, Ballistic Helmet & Body Armor, etc.
- Dishwashers, Military Cooking Kit, Mincer, Portable Shower & Launder Container, etc.
- Rappel, Links, Ropes, Lifesaving & Medical Equipment, Multipurpose Transporters.

### **Unmanned Systems**

- Robot: Reconnaissance, Surveillance, Observation, Bomb Disposal, Medical, Wearable, etc.
- Drone/UAV: Surveillance, Communications Relay, Heat Sensor, Infrared Light Sensor, Security, Firefighting, Aerial Photograph, Construction, Leisure, Mapping, etc.

### Security & IT Sector

- Military-IoT, Cloud, Big Data, Security Convergence Technology Product, etc.
- ICT based Mobile Subscriber Equipment, SMART Management System, etc.
- Surveillance & Security Protection, Entry Control Equipment, IT Security Systems, etc.

### Hanwha Corporation

ITEMS SCALE 750 m<sup>2</sup>

K9 Thunder, Unmanned Ground System, Chunmoo, KTSSM, LAH-AGM, 70mm MRL, BIHO, K21 Infantry Fighting Vehicle, K200A1 Armored Personnel Carrier, Armored Wheeled Vehicel, K21-105 Medium Tank etc.

· Hanwha is leading the advancement of domestic weapons through preemptive investment in not only guided and ammunition

· Hanwha operate businesses in precision-guided munitions, advanced ammunition, and underwater surveillance equipment. Also entered the aerospace business, sharpening our competitive edge.

### **Poongsan Corporation**

- ITEMS Ammunition

SCALE 360 m<sup>2</sup>

POONGSAN

Poongsan is world-famous ammunition manufacturer that produces almost all kinds of ammunition from small caliber to large caliber ammunition currently used in the military.

Poongsan continues improving the performance of ammunitions based on its integrated production system and sophisticated quality management system.

# Rotem

### Korea Aerospace Industries, Ltd

ITEMS KUH, LAH, NI-600VT, NCUAV, KF-X, FA-50

SCALE 270m<sup>2</sup>

• KAI has been taking leading role in aerospace industry in Korea with successful development of T-50 Advanced Jet Trainer, KT-1 Basic Trainer, KUH-1 (SURION) Utility Helicopter, and RQ-101 UAV (SONGGOLMAE), and KAI emerges technical excellence in the development of Korea

### HYUNDAI ROTEM COMPANY

ITEMS 2 MBT, K808 Advanced

SCALE 360m<sup>2</sup>

-

• HYUNDAI ROTEM has solidified position as a leader in future weapon systems equipped with cutting-edge core technologies through their own R&D capabilities and production systems for ground weapon systems and optimization and improvement capabilities.

SCALE

360 m<sup>2</sup>

### S&T Dynamics Co., Ltd. / S&T Motiv Co., Ltd.

ITEMS Gun & Cannon System including 120mm Self Propelled Mortar system, Transmission for tracked vehicles, Small Arms, AGL

• S&T Dynamics has played a pivotal role in protecting Sea, Air & Land of KOREA by supplying T/M for tracked vehicle such as K200A1 APC, K21 IFV, K55A1 SPH, M109 family, K9 SPH and Gun & Cannon ranging from 12.7mm K6 HMG, 20mm Gatling Gun, 30mm & 40mm Automatic Gun.

S&T Motiv has produced and developed products for the defense industry, automotive core components with their own precision technology.

### LIG Nex1 Co. Ltd.

ITEMS LIG Nex1's Defense Solutions for Future Warfare

SCALE 250m<sup>2</sup>

· LIG Nex1 is the leading defense company in Korea, the company has led Korean defense industry by developing and producing state-of-the-art weapon systems in various areas and has contributed greatly in Korea having self-reliant defense capability.

### YEONHAB PRECISION CO., LTD.

YEONHAB PRECISION has been leading the research and development of not only national-defense information and communication systems-in which company specialize-but also of the assembled cables, connectors, parts and electricity generators used widely across the national defense and other industries.

### DAEJI P&I CO., LTD.

ITEMS Anti-Riot Vehicle

SCALE 270m<sup>2</sup>

-

• DAEJI P&I specialize in the production of vehicles for transportation such as fuel tank lorry, environment-related vehicle, construction equipment. also has expanded product line up to Anti-riot vehicles such as Water Cannon vehicle, Armored Personnel Carrier and Anti-Drone system. Currently, they are export products to more than 20 countries abroad.

#### 30 DX KOREA 2020 | OFFICIAL SHOW REVIEW

### EO SYSTEM

ITEMS Thermal Imaging System, Night Vision System

SCALE 54m<sup>2</sup>

• EOST has played a key role as a major supplier to the Korean Defense Industry, and supplying high-precision optical components and systems to lacal and global market.

### Naviworks Co.,Ltd.

ITEMS VRSP(Virtual Reality Simulator Platform) / VTB-X(Virtual Training Block)

SCALE 108m<sup>2</sup>

-

• Naviworks Co., Ltd. is as an eXtended Reality(XR) -based comprehensive simulation and smart control expert, has developed aviation tactical training simulator and virtual training systems for military/public safety training.

### Republic of Korea ARMY

ITEMS ROK Army Introduction and Promotion, LVCG KCTC Training Simulation, Army TIGER 4.0 System

SCALE 540m<sup>2</sup>

-

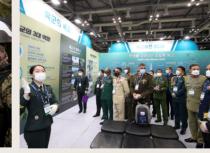

· Introduce the AI based 'Army Tiger 4.0 System' which is ground combat system with symbolizes the Korean Tiger, and Simulate the latest LVCG Korean Combat Training.

山川吉寺主

影性

### DASAN MACHINERIES CO., LTD.

ITEMS Pistols, Rifles and Related parts

SCALE 54m<sup>2</sup>

• DASAN MACHINERIES has been putting all efforts to have the best quality in firearms and automobile parts, precision casting product and cutting tool. Also produces high-quality products for the international quality standard, including ISO 9001, ISO 140001, TS16949 and DQMS.
